

HPT-series, Tensioning Hand Pump

- Lightweight and portable high-pressure hand pump
- Two-speed operation displaces a larger volume of oil per stroke, reducing cycle times for many testing applications
- Includes a gauge and coupler for direct connection to GT-Series bolt tensioners
- Integrated relief valve set at 1522 bar.

Maximum Pressure (bar)	Useable Oil Capacity (litres)	Model Number	Oil Displacement per Stroke (cm3)		Weight (kg)
			at 14 bar	at 1500 bar	
1500	2,54	HPT-1500	16,22	0,61	8,6
