

PTA-series, air driven torque wrench pumps

Two stage pump with automatic bypass for faster torque cycles

Transparent overlays in Nm and Ft.lbs, included for all Enerpac torque wrenches produce accurate torque settings and precise repeatability

Customer adjustable pressure relief valve to set hydraulic working pressures

Glycerine filled pressure gauge with scale readings in bar and psi

Oil Flow Rate	Pressure Rating	Model Number	Usable Oil Capacity	Air Consumption at 8 bar air at 3000 RPM	Motor Size	Weight
l/min	bar					
1st stage /2nd stage	1st stage /2nd stage		litres	l/min	kW	kg
3,30 / 0,33	120 / 700	PTA-1404-Q	2,0	1130	1,1	24
3,30 / 0,33	120 / 800	PTA-1404	2,0	1130	1,1	24
