

## Chain Saw Files & Accessories - Chain Saw File Handles

PFERD chain saw files and accessories are available to suit the needs of every chain saw user, from home owner to park manager to logger. PFERD offers a complete line of chain saw files, as well as some innovative and unique tools that will save you time and money, and keep you safer while working with your saw.

Sometimes simplicity is the best solution. PFERD's wooden chain saw file handles can be mounted quickly, easily and securely to any PFERD chain saw file. The wood features a smooth finish, without risk of splinters or cracks as found in cheap handles. Each handle features the PFERD logo, so your friends and colleagues will know that you know quality when it comes to sharpening your saws. Bevel angle on the front end of the handle is cut to 35° to help you maintain the proper filing angle.
