

Crimped Wire Wheel Brushes - Bench Brushes - EZmount® Wheels

ADVANCE BRUSH offers a complete range power brushes for Industrial use, including Wheel, End, Cup, Shaft Mount, and Tube brushes. Featuring M-BRAD™ Nylon Abrasive filament wheels, cup, disc brushes and more.

Advance manufactures a complete range of individual filament, crimped wire wheels for individual or gang-mounted use. Features include heavy fill density for more wire points, which means more brushing action and longer life; oil tempered, industrial quality wire, and uniform wire disbursement for optimal balance and finish. Choose from Narrow, Medium and Wide Face models, with an additional selection of wheels manufactured exclusively for bench and pedestal grinders.

Advance manufactures a complete selection of crimped wire brushes for bench and pedestal grinders. Choose from a wide selection of face widths and quality levels for the selection that best matched your needs. Use for edge blending, flash removal, cleaning, removing paint, removing rust and corrosion, roughening, matte finishing, and light deburring work. Features the new EZmount wheel brush, which ships with telescoping adapters to fit most every grinder manufactured with no mounting problems!

New EZmount crimped wire wheel eliminates mounting problems commonly found with other bench brushes. It's designed with a non-contoured, flat side profile that matches all mounting flanges on pedestal and bench grinders for a correct fit without a need for adapters. Easy installation takes seconds. Its telescoping bushing is self-sizing and makes full width contact to prevent it from falling into spindle threads.

EDP	Brush Diameter	Arbor Hole	Wire Size	Filament Material	Trim Length	Face Width	Max. RPM
