

Demolition hammer with SDS-plus

GSH 3 E Professional

The specialist tool for renovation and refurbishment

- High material removal rate thanks to powerful 650 W motor and special tile chisel
- Long lifetime thanks to the extremely sturdy hammer mechanism and tool holder as well as oil lubrication
- Excellent handling thanks to its low weight of only 3.5 kg, its compact design, lockable accelerator switch and soft grip

- Perfect coordination of hammer and chisel: this provides up to 40% faster work progress
- Up to 90% less tile breakage thanks to the optimum interaction of hammer and chisel
- Service port for easy and fast changing of the carbon brushes

Scope of delivery

Part no. 0 611 320 703

- Carrying case (2 605 438 482)
- Auxiliary handle (2 602 025 140)
- Tile chisel 260 x 40 mm (2 608 690 091)
- Pointed chisel (ET no. 2 608 690 095)
- Grease tube (ET no. 1 615 430 005)

Package (L/W/H) 470 x 340 x 117 mm

Voltage, electrical 230 V

Technical data

Rated power input 650 W

Impact energy 4,3 J

Impact rate at rated speed 0 – 3.500 bpm

Weight without cable 3,5 kg

Length 376 mm

Created with

Width	89 mm
Height	208 mm
Tool holder	SDS-plus

Functions

- Infinitely variable speed control
- Electronic
