

Metal detector

Wall scanner D-tect 150 Professional

The future of detection technology – Precision of the highest order

- Ultra wideband radar sensor system for detection accurate to the millimeter of ferrous/non-ferrous metals, electrical cables, wooden beams and plastic pipes such as floor and wall heating pipes
- Precise detection of rebar in concrete up to 15cm deep
- Digital display of material properties and maximum permitted drilling depth

Part no. 0 601 010 005

- Protective pouch
- 4 x 1.5 V batteries

Technical data

Detectable materials	Ferrous metals, non-ferrous metals, wooden substructures, power cables, plastic
Max. detection depth	150 mm
Detection depth, steel, max.	150 mm
Accuracy	± 5mm mm
Automatic deactivation facility, approx.	5 min
Power supply	4 x 1.5V LR6 (AA)
Weight, approx.	0,7 kg
Display of max. drilling depth	+
Dust and splash protection	IP 54
