

Magnetic drill stand

GMB 32 Professional

Good holding power for safe working

- Magnetic drill stand with high holding power of the magnetic foot for safe working
- Ideal for working on vertical and slanted surfaces or overhead
- Mains socket for the drill with switch-on protection: the drill can only be switched on when the magnetic foot is active

- Connection bolt between GBM 32-4 Professional and drill stand enables precise drilling with core cutters

Scope of delivery

Part no. 0 601 193 003

Package (L/W/H) 475 x 475 x 213 mm

Technical data

Rated power input	95 W
Clamping flange diameter	65 mm
Magnet retention force	25 kN
Working length, Z-axis	223 mm

Drilling performance with GBM 32-4

Twist drill bit diameter	32 mm
Core cutter dia.	12 – 60 mm
Weight without cable	26,0 kg
