

BP-series, battery powered pumps

- Speed and power in a portable cordless hydraulic pump
- Lightweight, compact design with integrated handle for maximum portability
- For use with single-acting tools and cylinders
- With manual 3/2 valve for advance and retract; hold function by switching off motor
- Dual power selection and variable speed for preferred flow and precise control
- Heavy-duty 28 Volt Lithium-Ion battery pack delivers constant fade-free power
- Immediate charging after use — a quick one hour charge
- Pump model includes two 3,0 amp-hour battery packs and quick charger.
