

ZE-series, stationary Z-Class electric pumps

- **Probably the best hydraulic pump you will ever use!**
- High-efficiency pump design – higher oil flow and bypass pressure, cooler running and requires 18% less current draw than comparable pumps
- All pumps have steel reservoirs, carrying handles or lifting eyes
- Totally enclosed, fan-cooled motor with steel fan guard
- User adjustable relief valve built-in on all valves
- **ZE-series:** for extended, high speed and heavy-duty cycle applications with medium to large size cylinders and tools
- **ZE standard electric:** manual valves.
- **ZE electric with LCD:** manual or solenoid valves. Back-lit LCD on electric box provides self-test, diagnostic and read-out capabilities never before offered on an industrial pump.
- For special requirements full pump options available

Pump * Configuration	For use with cylinder		Valve Function			Valve Model Number VM = manual VE = electric	Useable Oil Capacity litres	Pump Series / Model Number * (two stage) W = 400 volt / 3 phase / 50 Hz			
	S/A	D/A	Adv.	Hold	Retr.			ZE3-series 6,15 l/min at 7 bar 0,55 l/min at 700 bar 0,75 kW	ZE4-series 8,88 l/min at 7 bar 0,82 l/min at 700 bar 1,12 kW	ZE5-series 11,61 l/min at 7 bar 1,64 l/min at 700 bar 2,24 kW	ZE6-series 12,29 l/min at 7 bar 2,73 l/min at 700 bar 5,60 kW

* For options, other configurations, voltage and models [download catalogue pages](#).

M = manual valve, no electric box or LCD;

L = manual valve, with electric box and LCD;

D = solenoid dump valve, with electric box and LCD;

S = solenoid 3-position valve, with electric box and LCD.
