

Flexible Shafts & Accessories - Collets for Power Tools - Collets - Group 9

PFERD offers a wealth of possibilities for combining abrasives and power tool systems to achieve the perfect solution for any given material/workpiece and machining task. PFERD power tools include electric, pneumatic and flexible shaft machines. Accessories and tool maintenance equipment for all tools is also available.

PFERD Flexible Shafts are available in a variety of lengths and diameters to suit your needs. Whether you require a large diameter shaft to transfer high torque at low speed, or a highly flexible shaft to run at high speeds with small diameter tools, PFERD offers a wide selection of solutions to equip your flexible shaft machine.

PFERD offers a wide selection of imperial and metric collet diameters for all power tools offered. Collets are organized by "Group Number". To locate the appropriate collet for your PFERD tool or handpiece, please note the group number required and choose it from this listing. Or, locate your tool/handpiece on this website, and choose "Show Collets" to easily locate the right collet for your tool.

PFERD collets are organized by group number. Each power tool and hand piece lists a compatible group number. To locate the correct collet, please search for the tool or handpiece for which you require a collet. This selection includes all Group 9 Collets.
