

Flexible Shafts & Accessories - G28 Flexible Shaft System - G28-10 Shaft Compatible Handpieces

PFERD offers a wealth of possibilities for combining abrasives and power tool systems to achieve the perfect solution for any given material/workpiece and machining task. PFERD power tools include electric, pneumatic and flexible shaft machines. Accessories and tool maintenance equipment for all tools is also available.

PFERD Flexible Shafts are available in a variety of lengths and diameters to suit your needs. Whether you require a large diameter shaft to transfer high torque at low speed, or a highly flexible shaft to run at high speeds with small diameter tools, PFERD offers a wide selection of solutions to equip your flexible shaft machine.

G28 system includes shafts with a 10mm core diameter for highest torque at low to medium speeds (750 - 18,000 RPM), and all corresponding handpieces that fit the shaft. Compatible with RUER 10/250 SI and all variations of PFERD's Mammoth Machine. Collet range extends from 3/32" through 1/4"

Hand pieces for flexible shaft machines are available for each shaft size. The hand pieces in this section are compatible with G8-10 series.
