

T-series, test system gauges

- Dual scale reading calibrated in bar and psi
- All T-series gauges have spring-loaded backs with rubber blow-out plugs to protect case assembly against over-pressurization
- Integral maximum indicator pointer standard includes
- 1/2" NPTF versions made of high strength alloy steel
- 0,25" cone versions:
700 and 1400 bar models made of 316 stainless steel
2800 and 3500 bar models made of 403 stainless steel

Pressure Range		Model Number		Accuracy	Number of Intervals	Graduation of Intervals	Number of Intervals	Graduation of Intervals
bar	psi	Alloy Steel 1/2" NPTF	Stainless Steel 0,25" Cone					
0-70	0-1000	T-6001L	–	± 0,5 %	10	1	100	10
0-350	0-5000	T-6002L	–	± 0,5 %	50	5	500	50
0-700	0-10.000	T-6003L	T-6007L	± 0,5 %	100	10	1	100
0-1400	0-20.000	–	T-6008L	± 0,5 %	200	20	1	100
0-2800	0-40.000	–	T-6010L	± 1,5 %	500	20	5	200
0-3500	0-50.000	–	T-6011L	± 1,5 %	500	50	5	200
