

## WHC and WHR-series, hydraulic cutter heads

- Single-acting, spring return (except WHR-1250, which is double-acting)
- Guillotine action for easy operation
- Lifting handles on larger models for easy transport
- Ideal for use with most Enerpac pumps featuring 3-way valve or dump valve (only WHR-1250 requires 4-way valve)
- WHC-750 and WHC-1250 are available as tool-pump sets
