

Impact wrench

GDS 18 E Professional

The versatile tool for the workshop

- For wheel fitting on cars, scaffolding and shelf construction, in the workshop and in service centres
- Favourable centre of gravity thanks to centre grip enables low-fatigue one-handed operation
- High impact performance with low weight

- V-groove impact mechanism with low recoil torque and long lifetime
- Forward/reverse rotation for tightening and loosening
- Torsion bars (special accessory) guarantee adherence to desired torque
- Easy-to-change tools

Scope of delivery

Part no. 0 601 436 803

Package (L/W/H) 360 x 270 x 115 mm

Voltage, electrical 230 V

Technical data

Rated power input	500 W
Torque, max. (hard screw driving applications)	250 Nm
Torque, max. (soft screw driving applications)	160 Nm
Tool holder	1/2" external square
Rated speed	500 – 1.300 rpm
Weight without cable	3,2 kg
Length	320 mm
Height	190 mm

Functions

- Electronic
- Forward/reverse operation
