

Knot Wheels, Unthreaded - Full Cable Twist-Single Row

ADVANCE BRUSH offers a complete range power brushes for Industrial use, including Wheel, End, Cup, Shaft Mount, and Tube brushes. Featuring M-BRAD™ Nylon Abrasive filament wheels, cup, disc brushes and more.

Advance unthreaded knot wheels are available in a variety of twist-types and knot configurations. Ranging from 3" to 16" in diameter, selection includes standard twist single and double row brushes for aggressive brushing action, as well as specialty brushes like short trim wheel for high impact, heavy duty use, and long trim for a less aggressive brushing action and improved surface finish. Includes pipe cleaning and joint expansion brushes.

Full cable twist is more aggressive than standard twist knots. Twisted all the way to the end of the knot, these wheels provide low flex, high impact cleaning action, and are designed for the toughest applications.

EDP	Brush Diameter	Arbor Hole	Wire Size	Filament Material	No. of Knots	Trim Length	Face Width	Max. RPM
