

## Large Diameter / Stationary Cut-Off Wheels - TableCut Cut-Off Wheels - Silicon Carbide for Masonry, Cast Iron, Plastics

PFERD Grinding & Cut-off Wheels offer world-leading performance. For free-hand, portable, chop and stationary saws.

If you operate demo saws or stationary saws, check out PFERD's wide catalog selection of blades. PFERD Portable blades are available for steel, stone, ductile, rail & decking, and masonry/aluminum. Stationary blades are available for low to high powered saws, for cutting all materials. PFERD also offers a complete technical service to match the correct wheel to your saw based on your application, or to develop special wheels to suit exacting demand in higher volume applications.

Special performance tool for abrasive cutting operations using stationary machines. Characterized by high lateral stability and very long tool life for chop stroke action.
