

Machinist Files - Flat Files for Aluminum

This file has fast cutting teeth especially designed for use on aluminum alloys, soft steel and various non-ferrous metals. Single cut, uniform in thickness, special tooth construction eliminates clogging.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut	
17101	Aluminum Flat		6	19/32	5/32	0	Request Info
17102	Aluminum Flat		8	3/4	7/32	0	Request Info
17103	Aluminum Flat		10	31/32	1/4	0	Request Info
17104	Aluminum Flat		12	1-5/32	9/32	0	Request Info
