

Machinist Files - Warding Files

Widely used by locksmiths in filing the wards in locks and keys, this file is also favored by machinists for narrow slotting and working on intricate shapes. Double cut, it is uniform but very thin in thickness and tapers in width toward the point.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut	
11107	Warding Flat (Tapered)	4	15/32	3/64		Bastard	Request Info
11108	Warding Flat (Tapered)	4	15/32	3/64		Second	Request Info
11109	Warding Flat (Tapered)	4	15/32	3/64		Smooth	Request Info
11110	Warding Flat (Tapered)	6	5/8	5/64		Bastard	Request Info
11111	Warding Flat (Tapered)	6	5/8	5/64		Second	Request Info
11112	Warding Flat (Tapered)	6	5/8	5/64		Smooth	Request Info
11113	Warding Flat (Tapered)	8	25/32	3/32		Bastard	Request Info
11114	Warding Flat (Tapered)	8	25/32	3/32		Second	Request Info
11115	Warding Flat (Tapered)	8	25/32	3/32		Smooth	Request Info
11116	Warding Flat (Tapered)	10	15/16	1/8		Bastard	Request Info
