

Machinist Files - CORINOX® Files for Stainless - CORINOX® Pillar

CORINOX® - machinists files are designed for use on stainless steels and exotic alloys. With a surface hardness of 1200 HV, these files offer excellent wear resistance and long service life. Their stainless steel surface leaves no corrosive residue on the work piece and effectively resists loading.

Dual safe edged Hand shape CORINOX Files have the same cross-sectional dimensions as the Flat File but is blunt in shape (no taper). Double cut, it has safe (uncut) edges which permits filing one surface without damaging an adjoining one.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut
