

Machinist Files - Key files – Flat

Similar to Warding Files, Key Files are very thin in thickness. Their big advantage is that they are manufactured in all popular machinists file shapes. Double cut. Designed specially for use in locks and keys, they are also well-suited for use by electricians, mechanics and anyone engaged in precision work.

Flat shape Key Files are tapered in width at the point and slightly tapered in thickness at the point. Double cut on both sides and are single cut on the edges.

EDP	Name	Length	Width	Thickness	Cut	
11140	Flat	4	25/64	1/16	Second	Request Info
11120	Flat	5	1/2	1/16	Second	Request Info
