

Machinist Files - Key files – Square

Similar to Warding Files, Key Files are very thin in thickness. Their big advantage is that they are manufactured in all popular machinists file shapes. Double cut. Designed specially for use in locks and keys, they are also well-suited for use by electricians, mechanics and anyone engaged in precision work.

Square shape Key Files are handy for use on slots, keyways, rectangular as well as square holes and for surface work. Square key files feature four equal sides. Double cut, they taper toward the point.
