

Mill Files - Mill Saw Files

Mill files are suitable both as an engineering and a sharpening file. Mill files are the best choice for filing where a smooth finish is important. Also good for polishing and deburring work in lathes. Mill files are widely used for sharpening tools and implements. Two square edges. Single cut on sides and edges. All sizes slightly tapered in width.

Same as regular Mill Files except that they have one or two round edges. Single cut on sides and edges. Round edges are used where rounded gullets are preferred, as compared to sharp corners or squared gullets.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut	
19017	Mill File	Flat, 1 Round Edge	8	25/32	9/64	Second	Request Info
19018	Mill File	Flat, 1 Round Edge	10	31/32	11/64	Second	Request Info
19019	Mill File	Flat, 2 Round Edges	8	25/32	9/64	Second	Request Info
19020	Mill File	Flat, 2 Round Edges	10	31/32	11/64	Second	Request Info
