

## Needle Files - Half Round Needle Files

Swiss Pattern Needle Files are used by die makers and other fine tool makers. PFERD manufactures twelve different shapes, each with long knurled handle for firm grip. For the comfort and protection of tool and die maker's hands, we now make available bonded Plastic Handles on all Swiss Pattern Needle Files. Detail filing with this new design handle is made easier and safer by eliminating cramped fingers and the possibility of scratches or cuts on filer's hands caused by slipping. Makes unnecessary the improvising of other makeshift handles or tape. All Needle Files are double cut.

EDP	Name	Length	Cut	
12017	Half Round 5-1/2	0		<a href="#">Request Info</a>
12056	Half Round 5-1/2	2		<a href="#">Request Info</a>
12018	Half Round 6-1/4	0		<a href="#">Request Info</a>
12057	Half Round 6-1/4	2		<a href="#">Request Info</a>
