

New Power Tools - New! 4-1/5" - 5" Variable Speed Electric Angle Grinder

PFERD offers a wealth of possibilities for combining abrasives and power tool systems to achieve the perfect solution for any given material/workpiece and machining task. PFERD power tools include electric, pneumatic and flexible shaft machines. Accessories and tool maintenance equipment for all tools is also available.

PFERD tools are world-reknown for power, performance, quality and engineering. Check out what's new in this section!

This high performance electric angle grinder is ideal for all types of grinding, cutting, brushing and polishing work. The combination of high power output (1,050 watts) and digital electronic speed control ensures a constant RPM for top performance, even under high loads. The stepless speed variation of 4,200 to 10,000 RPM and the powerful motor ensure optimal working at all speeds.

The grinder is extremely comfortable and easy to handle because of its excellent design, protected throttle switches and ergonomically-angled anti-slip handle.

Special features

- Double insulated
- Digital-electronic control for constant RPM
- High output guarantees very good speed stability
- Intelligent tool design provides comfortable, ergonomic grip, as well as angling of tool for efficient cutting and grinding.
- 5/8-11 threaded spindle
- Angle head can be dismounted and rotated for cutting use.
- Included protective guard rotates to provide safety during either cutting or grinding
- Advanced air intake system provides cooling to motor even when covered or blocked
- Sturdy and robust tool casing is impact resistant and will not melt or weaken

EDP	Model Number	Variable RPM Range	Voltage (50-60Hz)	Watts	Amps	Spindle Thread
91205	UWER 15/100 SI	10,000 - 4,200	120	1050	12	5/8-11 Thread
