

POLICLEAN® - POLICLEAN® Wheels and Arbors - Arbors for POLICLEAN® Wheels

PFERD produces a complete range of coated and non-woven abrasives including Fiber Discs, Flap Wheels, Belts, Flap Discs, Rolls and much more. With innovative specialties like POLICAP® seamless abrasive caps, you'll find new solutions for your finishing needs with PFERD.

PFERD POLICLEAN® is a coarse-structured non-woven abrasive material made of a special combination of synthetic fibers and abrasive grain. The flexible structure adapts ideally to the surface contours and shape of the work piece. Open-cell material prevents loading and gives cool grinding properties. POLICLEAN® tools leave no corrosive residue on the work piece surface.

PFERD offers POLICLEAN® tools in several types and versions:

- Wheels
- mounted tools
- COMBIDISC Mini discs
- Depressed Center discs

Choose PFERD POLICLEAN® material for

- Removal of rust, corrosion stains, scale, dirt, stubborn paint or adhesive residue, old coatings or residue of seals or gaskets
- Cleaning of weld seams, removal of slight drawing marks and heat discolorations, especially on stainless steel
- Surface roughening in preparation of adhesive bonding or application of fillers
- Cleaning of surfaces of diverse characteristics

PFERD's POLICLEAN® wheels range in diameters from 3" to 8". They can be used singly, or gang-mounted on special drive arbors to achieve a wider face.
