

POLIFAN® Flap Discs - Performance Line SG - Masonry Silicon Carbide Flat

PFERD Grinding & Cut-off Wheels offer world-leading performance. For free-hand, portable, chop and stationary saws.

POLIFAN® Flap Discs combine the 2-step process of rough grinding with a hard wheel and finishing with a fiber disc. One-step POLIFAN® Flap discs are aggressive, and capable of extremely high removal rates. They grind quietly and comfortably for enhanced user comfort. They leave a superior surface finish, and can save you time and money.

Wide range of market-leading performance flap discs for professional use. POLIFAN® SG is available in 4" through 7" diameters. Flat and conical shapes. And a wide variety of coated materials to accomplish any finishing task - From tough edge-grinding applications to cool removal on Stainless steel.

Well suited for use on titanium, fiberglass, plastics, and masonry products. Sharp, aggressive cutting action leaves a clean, smooth finish.
