

Perfect Files - Three Square File with Handle

PFERD offers THE PERFECT FILE for professional use. Packaged with a stylish, new "friction-grip" handle already attached in a new practical 5-pack carton.

Three Square Files are triangular in cross-section, like Tapers, but are double cut and have fairly sharp corners that are slightly set and cut. These files are for general use by machinists for filing internal angles more acute than the right angle, for clearing out square corners and filing taps and cutters. Packaged with a stylish, new "friction grip" handle already attached in a new practical 5-pack carton.

| EDP | Name | Length | Width | Cut | |
|--------|---------------------|--------|---------|------------------------------|--|
