

Polishing Tools & Pastes - Cloth Rings - Hard Cloth Rings

PFERD produces a complete range of coated and non-woven abrasives including Fiber Discs, Flap Wheels, Belts, Flap Discs, Rolls and much more. With innovative specialties like POLICAP® seamless abrasive caps, you'll find new solutions for your finishing needs with PFERD.

PFERD offers an extensive range of polishing tools in diverse shapes and diameters. A wide selection of products is available to achieve refined surfaces on all materials. Felt wheels and points, cloth rings, polishing pastes and grinding compounds create a product selection that will allow you to achieve your desired surface finish on any workpiece geometry.

Cloth rings are available in four styles. These tools are used with polishing pastes for pre-polishing and high-gloss polishing tasks. For very smooth finishes it may be recommended to use several, or even all, types in succession.

Hard Cloth (TH) is ideal for moderate pre-polishing of:

- Steel or stainless steel with green polishing paste (EDP 48760).
- Aluminum or brass with grey polishing paste (EDP 48761).
- Non-ferrous metals with brown polishing paste (EDP 48762)

EDP	Diameter	Center Hole Diameter	Useful Width	Recom. Speed RPM	Max. RPM	Suitable Arbor
