

Power Brush Accessories - Drive Arbors for Small Diameter Wheel Brushes

ADVANCE BRUSH offers a complete range power brushes for Industrial use, including Wheel, End, Cup, Shaft Mount, and Tube brushes. Featuring M-BRAD™ Nylon Abrasive filament wheels, cup, disc brushes and more.

Advance Brush offers a complete assortment of accessories to allow maximized flexibility of matching stock items to meet your mounting requirements.

Drive Arbors for Advance Tube Center wheels are available in three styles:

- **Chuck:** Countersunk head tightening-screw fits into a recessed flange washer for locking power. Allows brushes to reach edges without interference from arbor overhang. Change brush without removing arbor from collet. Unthreaded shaft.
- **Flat Head:** Brush mounts between a single washer and the flat head. Locked in place with a left hand reverse threaded nut. Allows the brush to be close to the work piece. Threaded shaft.
- **Nut:** Nut can be removed to replace worn brush while arbor is in chuck.

EDP	Arbor Style	Fits Brush ID	Wheel Width	Shank Dia.	Head/Washer Dia.	Overall Length	
84650	Chuck	1/4	1/4 to 3/8	1/4	9/16	2-1/8	Request Info
