

## A, VB and VH-series, press accessories & speed chart

### V-blocks:

Facilitate positioning of pipes and bars

Serve as convenient worktable

All V-block model numbers include two V-blocks

**Hydra-lift:** Adjustment of vertical daylight on Roll-Frame presses

**Hydrajust:** Adjustment of vertical daylight on VLP-workshop presses

**Speed Chart:** Cylinder-pump speeds of all presses.  
Download catalogue page for speed chart.
