PFERD PSA (Pressure Sensitive Adhesive) discs are manufactured with heavy duty "X" weight resin cloth and a special hot melt adhesive coating system. This results in discs that will withstand even the most grueling applications. They adhere securely to the backing plate or holder without risk of slipping or flying off. When removed from the tool, they leave no residue. Available in Aluminum Oxide and Zirconia, in a complete range of diameters and grits.

This is a selection of all 1-1/2" diameter PSA products (discs and holders) in the standard PFERD range. Please feel free to contact us for additional types and grits.
