

Random orbit sander

GEX 150 Turbo Professional

Three tools in one

- Just one click: switch from fine sanding to coarse sanding or polishing
- Five times more material removal in turbo operation (coarse sanding): the time-saving means that the tool pays for itself after a few working hours
- Longest lifetime thanks to perfect bearing seals, overload protection and a robust turbo switch

- Smallest grip circumference on the market, most compact design and low weight ensure effortless working
- Wear-free pad brake for a surface finish free of scores (fine sanding)
- Excellent, quiet running and five times longer lifetime than conventional sanding pads
- Health protection thanks to collection of 98% of dust by means of an external dust extractor
- Constant Electronic for constant speed under load

Scope of delivery

Part no. 0 601 250 760

- Sanding paper G120
- Auxiliary handle (1 602 025 024)
- Allen key KW 5 (ET no. 1 907 950 006)
- Carrying case (2 605 438 186)
- Key depot

Package (L/W/H) 360 x 255 x 200 mm

Technical data

Sanding plate diameter	150 mm
No-load speed	3.100 – 6.650 rpm
Orbital stroke rate	6.200 – 13.300 opm
Sanding plate speed	290 – 620 rpm
Eccentricity	2,25 mm
Sanding sheet / disc attachment	Velcro-type fastening
Rated power input	600 W
Weight without cable	2,4 kg
Oscillating circuit diameter	4,5 mm
