

Router

GOF 2000 CE Professional

The robust precision plunge-cutting router

- Robust 2000-watt motor, which has sufficient power reserves for large routing diameters with its Constant Electronic
- Lockable setting wheels and clamp levers guarantee repeatable precision up to 1/10 mm accuracy
- The suspension of the plunge-cut function can be switched off for more convenient working at large routing depths and in bench-mounted use

- SDS system for tool-free fitting of template guides
- Exact centering of the base plate for working with template guides
