

## Specialty Files - COMBI-CUT Files

PFERD manufactures a wide selection of specialty files, developed for high performance filing in unique applications.

COMBI-CUT Files are designed with coarse teeth for fast stock removal. Featuring a unique pattern of narrow chipbreakers, COMBI-CUT files produce a smoother finish than most other machinist files. This labor-saving, all-purpose file removes more material in fewer strokes. Adjust filing pressure to achieve the desired surface finish. COMBI-CUT files combine the performance of Mill files and Flat files.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut	
11166	COMBICUT	Flat (Tapered)	8	25/32	7/32	COMBI	<a href="#">Request Info</a>
11167	COMBICUT	Flat (Tapered)	10	31/32	1/4	COMBI	<a href="#">Request Info</a>
11168	COMBICUT	Flat (Tapered)	12	1-5/32	9/32	COMBI	<a href="#">Request Info</a>
