

Specialty Files - Tungsten Point Files

PFERD manufactures a wide selection of specialty files, developed for high performance filing in unique applications.

Tungsten Point files are very thin, making them particularly suitable for use on electrical contact points and in narrow grooves and slots. Once tips become worn, they can be broken off. The punch handle eliminates the need for an additional handle.

EDP	Name	Shape/Form	Length	Width	Thickness	Cut	
17008	Tungsten Point Flat		4	5/16	1/32	Second	Request Info
