Wet & dry vacs

BUDDY 15 AND 18

A powerful helper against wet or dry dirt

The Nilfisk-ALTO BUDDY is a small, lightweight, powerful helper for picking up wet and dry debris... for your home, car, workshop and hobbies. Available in 15 or 18 litre versions, all including the cost and time-saving fleece filter bag system which can be left in place even for moist debris.

Product facts

- The light weight makes it easy to move around.
- 1300 watt motor will pick up any debris you want to get rid of.
- Two big wheels at the back and a castor in front make the machine very stable.
- New fleece filter bag material allows you to pick up moist material without damaging the filter bag.
- The standard wet filter protects your turbine for a long lifetime.
- The built-in accessory holder provides storage for your accessories so they are always at hand.
- Ergonomic grip so you will have a balanced machine when you carry it around.

AERO 20 AND 25

Professional semi-automatic filter cleaning in a compact machine

Nilfisk-ALTO's exclusive Push&Clean semi-automatic filter cleaning system is featured on all of the AERO machines. Lightweight and easy to transport, the AERO offers a choice of 20 or 25 litre capacities. INOX containers are also available in 20 litre models. Some models (-21) feature AutoOnOff.

Product facts

- Push&Clean semi automatic filter cleaning means it takes only seconds to clean your filter, ensuring continued high performance.
- 1300 or 1400 watt motor will pick up even heavy debris.
- Two big wheels and two castors ensure stability and mobility.
- Fleece filter bag system allows you to pick up moist materials with the bag in place.
- A true cartridge filter removes fine dust and protects your turbine.
- The built-in accessory holder keeps your accessories always at hand.
- Click system for fast change between tool adapter and standard accessories.

Commercial vacuum cleaners

SALTIX 3

Dry vacuum cleaner

The ideal solution for office or hotel cleaning. The SALTIX 3 is mobile, compact and powerful, but quiet. The Dual Filter system keeps the exhaust air clean, and vacuum power is easily controlled on the hand tube. The SALTIX 3 is developed to make it easy for the user and weighs only 5.6 kg.

Product facts

- Dual Filter system ensures clean exhaust air.
- Suction power control on the hand tube.
- Large, 9 litre filter bag volume for longer time between changes.
- 10m cable and 2.5m suction hose give a large working radius.
- Small and light for excellent mobility despite big performance.
- User friendly cable storage.
- On board storage for nozzles.
- Inner sack filters easy to install and clean.
- Non disturbing working sound level.

SALTIX 3

Central vacs

CENTIX

Central vacuum cleaner

The perfect solution for a clean, quiet house, with a minimum of effort. Simply plug the 9 m vacuum hose into any of the suction sockets conveniently located throughout your house, and your vacuum cleaner is running. And the only sound you hear is the whisper of the air into the suction nozzle.

Product facts

- Mounted out of the way and out of sight but always ready to work.
- Silent vacuuming. You only hear the whisper of air into the vacuum nozzle.
- Completely AutoOnOff. Plug in the vacuum hose and the machine is running.
- Exhaust air is directed outside the house, keeping everything clean and quiet.
- Installation is quick and easy with the installation kits.
- CENTIX 60 and 60 PREMIUM can be quickly and easily dismantled for mobile use (CENTIX 60 PREMIUM includes an extra 1.8 m hose for this purpose).

MAXXI WD

**Powerful and simple Wet&Dry solution**

A powerful, simple solution for Wet&Dry vacuum users, the MAXXI series is economical to buy and use. They feature a simple, washable cloth filter on all models, and 35 or 75 litre containers... and WD 7s also feature a built-in drain hose with 2 motors in WD 7 DUO models.

Product facts

- Economical to buy and operate.
- WD 3 model has 35 liter container, and WD 7 models have 75 litre containers.
- WD 7 models include a built in drain hose.
- Choose 1 or 2 motor performance on DUO models.
- Includes a washable cloth filter and filter bag.

ATTIX 3

Wet&Dry on the move

The perfect Wet&Dry solution for craftsmen and other professionals on the move. Bring the Nilfisk-ALTO ATTIX 3 along and remove every trace of your work quickly and completely... and with a power surplus much higher than you would expect from such a small and compact machine.

Product facts

- Compact, ergonomic, and powerful... the definition of ATTIX 3.
- Push&Clean filter cleaning system (on 360-11 and 360-21 models) takes care of filter cleaning tasks in just a few seconds.
- Washable PET fleece filter for high efficiency and low maintenance costs.
- Silent Power. High performance that is seen, but not heard.
- 27 litre container volume and a filter bag for the ultimate in effective filtration.

Single-phase wet & dry vacs

ATTIX 7

Wet&Dry power

The Wet&Dry ATTIX 7 is perfect for users who need big capacity and features that focus on efficiency. Our most silent vacuum ever, with superior suction performance, stainless steel tilt or lift-out container, automatic filter cleaning, anti-static capability and more.

Product facts

- Industrial specifications, robust construction, and powerful... the definition of ATTIX 7.
- XtremeClean. Fully automatic filter cleaning system (on many models) takes care of filter cleaning tasks in just a few seconds without interrupting your work.
- Washable PET fleece filter for high efficiency and low maintenance costs.
- Silent Power. High performance that is seen, but not heard.
- 70 litre stainless steel container and a filter bag for the ultimate in effective filtration and working efficiency.

ATTIX 961-01

Wet or dry - when industrial power is a must

The ATTIX 961-01 is the most powerful two-motor performance machine, for everyone who needs to pick up heavy debris. Featuring Push&Clean filter cleaning and a 70 liter Stainless Steel tilting and removable container mounted on a steel chassis. Includes the Soft-Start system.

Product facts

- Two-motor industrial performance.
- Washable PET fleece, big surface filter for high efficiency and low maintenance costs.
- Push&Clean filter cleaning system for high efficiency.
- Stainless Steel tiltable and removable container for perfect handling and disposal.
- Complete package with 38 mm accessories with Stainless Steel tubes and 400 mm Wet&Dry floor nozzle.
- 10 m cable for a large working radius.
- Applicable for Wet&Dry pick-up by reliable floating system.
- Robust fleece filterbag standard.

SELF-SERVICE (SB) VACUUMS

Coin-operated self-service vacuums

Coin-operated self-service vacuums for filling stations have special requirements which are all found in the SB series. Single motor or dual motor machines are available, and the MARATHON models have a brushless, long-life motor system. All models use a simple cloth filter system for easy maintenance

Product facts

- Superior suction power.
- MARATHON models have a brushless, long life motor system.
- TANDEM models have 2 vacuum motors and suction hoses.
- Available in Euro, National Coins or Token versions.
- Simple cloth filters system for quick and easy maintenance.
- Available in oil company colours.

TYPE 22

For ATEX Type-22 explosive dust

If you are working in an ATEX Type-22 explosive dust environment, you will find the perfect Wet&Dry solution here. Choose from many different container sizes and performance levels, all with features that will enhance your working efficiency and minimize your operating costs.

Product facts

- Approved for work in ATEX Type 22 environments with explosive dust.
- Industrial performance, robust construction, and loaded with useful features to maximize your efficiency and minimize your costs.
- Brushless, long life motors for top performance and durability.
- Automatic Start/Stop for electric tools connected to the machine is available on many models.
- High capacity containers for big jobs.
- A full range of Type 22 accessories are available to tailor your machine to your application.

Industrial health/safety wet & dry vacs

ZONE 2

Perfect for ATEX ZONE 2 environments

The Wet&Dry Turbo D/X-B1 is perfect for users who are working in ATEX Zone 2 environments and need big capacity and features that focus on efficiency. With superior suction performance, stainless steel container, anti-static capability and more.

Product facts

- Approved for use in ATEX Zone 2 environments where flammable gases are sometimes present.
- Robust steel chassis with large wheels for easy transport on rough ground.
- High power and air flow for the really difficult jobs in an industrial environment.
- 85 litre stainless steel container.
- Can be used with Type 22 accessories.
