

PRV-series, pressure reducing valves

- Precise control of hydraulic pressure
- Stackbuilding with VP series modular valves using TRK-series Tie Rod Kits
- Stackable for multiple pressures on one valve stack assembly
- Maintains a constant pressure in secondary circuit
- Includes check valve that prevent pressure drop on secondary side
- Tool adjustable knob can be locked

Mounting style VP-series valves	Remote mounting	Adjustable pressure range	Maximum pressure	Model number	Oil ports	Maximum oil flow
		bar	bar		BSPP	l/min
•	–	30 - 300	350	PRV-1	G1/4"	7,0
–	•	30 - 300	350	PRV-3	G1/4"	7,0
